Students To Discuss Leadership

From among the study, will participate in a leadership group meeting here tomorrow evening by the National Association of Student Leaders (NALS).

The group is sponsored by the National Association of Student Leaders (NALS) and the National Association of Student Leaders (NALS). Discussions will cover leadership structures, habits of character, industry, social work, and group communication.

Dr. F. W. Voss, utility, educational, and religious leaders, will address the meeting at the Municipal Building.

The discussion on Tuesday evening is sponsored by the National Association of Student Leaders (NALS) and the National Association of Student Leaders (NALS).

Nuclear Electric Nearer As Waste Is Turned Into Solid

The job is complicated by the necessity to preserve the safety of the reactor. It is on the reactor the rea-

bility of scientific and research groups to work without interference.

The reactor's design includes a safety system that will automatically shut down the reactor if a problem arises.

The safety system includes a backup system that will automatically shut down the reactor if a problem arises.
